

*Are you a grower or an aspiring grower who is looking for learning opportunities in sustainable farming?*

# Growing Growers *Kansas City*

- Apprenticeships on local farms for aspiring growers
- Workshops covering market farming and related topics
- Farm tours of successful local farming operations
- Networking through our Email listserv and apprenticeship
- Specialized trainings for growers

Growing Growers is a collaborative effort of K-State Research and Extension, Univ. of Missouri Extension, Lincoln Univ. Cooperative Extension, the Kansas Rural Center, the KC Food Circle and Cultivate KC. We work to increase the production of local food by helping new and existing producers grow their businesses.

For more information on the programs, go to: [www.growinggrowers.org](http://www.growinggrowers.org)
