K-State Research and Extension – Douglas County is offering a class on simple and effective home landscape design. The class consists of three, 3-hour sessions with hands-on activities and homework. Focus is on overall design rather than individual flower bed design. Participants will leave with an understanding of how to create a space to better serve their needs.

Classes are August 7, 14, and 21 at the Extension office, 2110 Harper St, Lawrence. Attendance at all three sessions is necessary. Sign up to attend either mornings (9a-noon) or afternoons (1:30-4:30p).

Registration is $40 to cover the costs of tools and materials. Payment is required at registration. Bring a copy of your plat (this is the surveyor’s map of property boundaries and the house layout) to the first class period. Plats are available at the Appraiser’s office or the surveyor’s office. Registration and payment can be submitted in person Monday-Friday 8a-5p at the Extension office, mailed to the address below, or submitted through Paypal via http://tinyurl.com/DgCo-LDReg. Class is limited to 15 participants.

Kansas State University is committed to making its services, activities, and programs accessible to all participants. If you have special requirements due to a physical, vision, or hearing disability, contact Jennifer Smith, County Extension Agent, at 785-843-7058.
