Thank you for your commitment to providing learning experiences for our youth participants. The safety of our youth and volunteers is our utmost concern. As we start to phase in our face to face programs we will need to take special considerations in the planning process. Be sure to refer to the COVID-19 4-H Meeting Guidelines document. One step to hosting an in person meeting will be logging all participants, parents, volunteers and Extension staff. The logs will assist with contact tracing in the event a participant tests positive for COVID-19.

To successfully log participants follow the steps below:

- Print blank log sheets prior to the program.
- Ask all attendees to complete the log as they enter the building.
- Keep all logs for a minimum of three weeks after the program date.

Any questions regarding the participant log or hosting in person programs can be directed to Kaitlyn Peine at kpeine@ksu.edu. Thank you for helping us make the best better!
List of common COVID symptoms includes: cough, shortness of breath or difficulty breathing, fever, chills, muscle pain, sore throat, new loss of taste or smell. Other possible symptoms include: nausea, vomiting, diarrhea.

Please indicate whether you have had fever or symptoms within the past two weeks.
