

March 24, 2020

How to submit a soil sample to K-State Soil Testing Laboratory until further notice.

A couple options:

For those who can get samples to Throckmorton in Manhattan, KS we have drop box outside and we pick up samples at least twice a day: <https://www.agronomy.k-state.edu/services/soiltesting/> (2308 Throckmorton Plant Sciences Center, 1712 Claflin Road, Manhattan, KS 66506)

K-State Soil Testing Lab has UPS labels that customers can use to send samples directly: https://ksusoiltesting.com/ups_form.php

Contact the lab: soiltesting@ksu.edu with any questions.
